😊 PROFILE

Creative and enthusiastic frontend developer. Proficient in HTML, CSS, JavaScript and a variety of modern frontend framework such as React, Bootstrap and many more. Dedicated to delivering high-quality code and improving user experience by staying up-to-date with the latest trends. Passionate about collaborating with designers and other developers to turn ideas into responsive, user-friendly interfaces that delight and engage users. Seeking new challenges and opportunities to continue learning and growing as a developer.

★ PROJECTS

○ Amazon Prime Clone (HTML/ CSS/ JS)

Live

Code

- Built a landing page with hero image, call-to-action button, and navigation bar.
- Populated Movies and Tv shows pages with posters and implemented hover-over functionality to display additional information using API.

○ Sliding Puzzle

Live

Code

- Designed and developed a tile sliding puzzle game using HTML, CSS and JavaScript.
- Used agile development methodology.

○ Personal Portfolio

Live

Code

- Designed and developed a personal portfolio website showcasing professional skills, experience and accomplishments using HTML, CSS, and React.
- Created a user-friendly interface with a responsive design that adapts to various devices and screen size with dark and light modes.
